1 INNLEDNING

Sideveggene i brennkammeret på alle Urfeuer-peiser kan forlenges sideveis mot utsiden. Den tilhørende monteringsrammen er utformet slik at brennkammeret kan forlenges til venstre eller høyre etter behov, innenfor brannbeskyttelsesplatenes gittermål (220 mm). Alltid omsluttet av monteringsrammen, som forlenges i segmenter.
